

LEVON KHORASANDZHIAN

Backend Developer | Java

Moscow, Russia | Open to onsite, hybrid, and remote roles

lakhorasandzhyan@edu.hse.ru | t.me/yungflaeva | [+7 916 017-19-26](tel:+79160171926) | github.com/lkhorasandzhian

EDUCATION

Higher School of Economics

B.Sc. in Computer Science, Software Engineering

M.Sc. in Computer Science, Data Engineering

Moscow, Russia

Aug 2021 – Jul 2025

Oct 2025 – Jul 2027

Relevant Coursework (GPA: 8.5/10): Algorithms and Data Structures, Software Systems Architecture, C# Programming, Software Construction (Java), Distributed Databases and Data Warehouses, NoSQL Databases, Computer Architecture, Requirements Engineering, Software Development Tools, Software Quality Assurance and Testing

PROJECTS

Product Catalog Service | *Java, Spring, PostgreSQL, Docker, Swagger, AOP, Web MVC*

Nov 2025

- Developed a REST API for a marketplace system with authentication, role-based access control, and authorization
- Implemented data storage using PostgreSQL with Docker-based containerization
- Documented API using Swagger and Javadoc
- Implemented cross-cutting concerns (logging, validation, security) using Spring AOP
- Evolved project across 5 iterations: from console app and servlets to full Spring MVC application

Restaurant Order Processing System | *Java, Spring, H2, Postman*

June 2023

- Designed backend system based on microservices architecture
- Implemented two microservices: authentication and order management
- Designed REST APIs for user registration, authentication, role management, and menu handling
- Used in-memory H2 database for data storage
- Prepared API testing collections using Postman

TECHNICAL SKILLS

Language: Java

Frameworks: Spring Core, Web MVC, REST, Security, AOP

Databases: PostgreSQL, H2

Tools: Git, Docker, Docker Compose, Linux, Postman, Swagger, Javadoc

Testing: JUnit 5, Mockito

LANGUAGES

English: B2

Russian: Native
