

LEVON KHORASANDZHIAN

Backend Developer | Java

Moscow, Russia | Open to onsite, hybrid, and remote roles

lakhorasandzhyan@edu.hse.ru | t.me/yungflaeva | [+7 916 017-19-26](tel:+79160171926) | github.com/lkhorasandzhian

EDUCATION

Higher School of Economics

Moscow, Russia

B.Sc. in Computer Science, Software Engineering

Aug 2021 – Jul 2025

M.Sc. in Computer Science, Data Engineering

Oct 2025 – Jul 2027

Relevant Coursework (GPA: 8.5/10): Algorithms and Data Structures, Software Systems Architecture, C# Programming, Software Construction (Java), Distributed Databases and Data Warehouses, NoSQL Databases, Computer Architecture, Requirements Engineering, Software Development Tools, Software Quality Assurance and Testing

Yandex Backend Development Summer School

Moscow, Russia

Team business project “Advertising Campaign Auditor”

Jul 1 – Aug 31

Built a service for Yandex Direct and Yandex Metrika that collects data from Direct and other sources, validates it against business rules, and returns detected issues with recommendations

PROJECTS

Product Catalog Service | *Java, Spring, PostgreSQL, Docker, Swagger, AOP, Web MVC*

Nov 2025

- Developed a REST API for a marketplace system with authentication, role-based access control, and authorization
- Implemented data storage using PostgreSQL with Docker-based containerization
- Documented API using Swagger and Javadoc
- Implemented cross-cutting concerns (logging, validation, security) using Spring AOP
- Evolved project across 5 iterations: from console app and servlets to full Spring MVC application

TECHNICAL SKILLS

Frameworks and Technologies: Spring Framework, Spring Core, Spring Boot, Spring Data, Spring MVC, Spring Web, Spring Security, AOP, JDBC, JPA, ORM, Hibernate

Databases: PostgreSQL, MS SQL Server, MongoDB

Build Tools: Apache Maven, Gradle

Tools: Git, Docker, Linux, Postman, Swagger, Javadoc, Yandex Cloud

Testing: JUnit 5, AssertJ, Mockito, Testcontainers

LANGUAGES

English: B2

Russian: Native
